DEPARTMENT OF COMMERCE.

TARIFFS.

Simla, the 19th May 1927.

No. 202-T.(16).—The Tariff Board in their report on the grant of protection to the paper and paper pulp industries recommended that 'newsprint' should be excluded from the protective duty of one anna per lb., and should continue to be liable only to the revenue duty of 15 per cent *ad valorem*. The evidence taken by the Board satisfied them that the newsprint commonly imported contained about 70 per cent of mechanical wood pulp, and they proposed that for tariff purposes newsprint should be defined as 'printing paper containing not less than 65 per cent of mechanical wood pulp', the intention clearly being to exempt from the protective duty the newsprint commonly imported. Effect was given to the Board's recommendation in the Bamboo Paper Industry (Protection) Act, 1925.

2. A question was recently raised whether the percentage should be calculated on the total weight of the paper, or on the weight of its fibre content, and the Government of India ruled that according to the wording of the Tariff Schedule the percentage must be calculated on the total weight of the paper. It has, however, been represented by importers that, if the law must be interpreted in this way, the effect will be to bring within the scope of the protective duty large quantities of imported newsprint which it was the intention of the Legislature to exclude. The Government of India have therefore decided to ask the Tariff Board to report whether any, and if so what, changes are desirable in those entries in the Tariff Schedule which regulate the duty payable on newsprint.

3. Firms or persons interested, who desire that their views should be considered by the Tariff Board, should address their representations to the Secretary, Tariff Board, Shillong, before the 15th June 1927.

Fort St. George, May 30, 1927.

MARINE NOTIFICATIONS.

NOTICES TO MARINERS

No 24 of 1927.

INDIA—BAY OF BENGAL—MADRAS HARBOUR LIGHT—CHANGE.

[*Reference.*—Notice to Mariners No. 94 of 1922.]

On or about the 1st August 1927, the Aga Light erected at the head of the Sheltering Arm in Madras Harbour Breakwater will show a red flashing light instead of the present white flash—without any change in the duration of flash and the number of flashes to a minute.

C. R. CAMPBELL, Captain, R.I.M.,
Presidency Port Officer

Madras, 31st May 1927.

No. 26 of 1927.

The following is republished for information:—

INDIA—WEST COAST—NARAKKAL.

Smooth water will be found in 5 fathoms, L.W. S.T. Soft mud, on the following bearings magnetic, viz :—

Malipparam Flagstaff 57°.
Narakkal Obelisk 354°.
Cochin Lighthouse 118°.

2. Masters of vessels will approach the anchorage with great caution as dredging operations have recently taken place in Cochin outer roads which may have affected the soundings.

3. Mariners are cautioned that the mud flats off Narakkal have extended seaward.

4. Malipparam Light, bright, fixed, will be exhibited from the Flagstaff from 15th May to 30th September.

5. In taking up an anchorage due consideration should be given to the state of the weather. The anchorage given is a good one for all weathers, but smoother water will be found still further north. Vessels wishing for a quick despatch, may, during fine weather, approach nearer to Cochin to enable boats to get to and from Cochin between Vypeen point and the sands but in this position during a fresh breeze a short sea soon gets up making shipping operation difficult and causing damage to boats

Port Officer.
